

SOLID WASTE TARIFFS

Filing A New Tariff

Or

Amending an Existing Tariff

This publication has been updated to reflect rules adopted by the Washington Utilities and Transportation Commission (Commission) and effective April 22, 2001.

This publication explains procedures:

- For filing a tariff with an application for certificate authority (including new authority, leased authority, transfer of authority, and contract authority);
- For filing new solid waste collection tariffs;
- For amending currently-filed solid waste collection tariffs;
- For using the Commission's standard solid waste collection tariff format; and
- For filing a solid waste collection tariff in an alternate format.

Other documents containing provisions related to tariff filings include:

- Chapter 480-70 WAC (rules related to solid waste collection companies);
- Title 81.77 RCW (laws related to solid waste collection companies); and
- Chapter 480-07 WAC (the Commission's procedural rules).

You may request copies of these documents:

- From the Commission's Records Center. The Records Center telephone number is: (360) 664-1234.
- Through the Commission's Internet home page (www.utc.wa.gov). Using the Internet page you can view the documents, download and print the documents, or request that copies to be mailed to you.

If you have questions about solid waste collection company tariff filings, processes, formats, or technical issues, please contact the Transportation/Solid Waste Section at (360) 664-1242, or use the inquiry form available on our Internet home page (www.wutc.wa.gov).

PART ONE – FILING A TARIFF WITH AN APPLICATION FOR CERTIFICATE AUTHORITY

All applicants for solid waste certificate authority must file a tariff with the application submitted to the Commission.

SECTION 1 – APPLICANTS FOR NEW AUTHORITY (Permanent and temporary):

Applicants for new authority must file using the standard tariff format published by the Commission or an approved alternate form. A detailed description of the standard tariff format is published in this publication, see Part Two, Section 2, Subparagraph 1, on page 5. For additional information on alternate tariff formats, see Part Two, Section 2, Subparagraph 9, on page 6.

Applicants must file two copies of the draft tariff with the completed application forms submitted to the Commission. Applicants must ensure that the tariff submitted with the application is complete and accurately describes proposed operations. The tariff is a part of the application file and is a public record. Information contained in the tariff may be the subject of questions if the application is set for hearing.

If the application for certificate authority is granted, the tariff submitted with the application may need to be amended. Commission Staff will work with applicants to finalize the tariff before the final solid waste collection certificate is issued.

After the tariff is approved, the company may not charge higher, lower, or different rates and charges than are shown in the tariff. Instead, a filing to amend the tariff must be filed with, and approved by the Commission. Procedures for filing tariff amendments are shown in Part Two of this publication.

SECTION 2 – APPLICANTS OBTAINING AUTHORITY FROM ANOTHER COMPANY

Applicants seeking to acquire territory from an existing company through lease or transfer must file two copies of rates with the completed application forms submitted to the Commission. Customers in the territory being acquired cannot suffer a rate increase due to the transfer or lease process. Applicants may file the required tariffs in either of two ways:

- (a) The applicant may file a complete new tariff at the same rates approved by the Commission for the company from whom authority is being leased or transferred. In this instance the applicant must use the standard tariff format published by the Commission or an approved alternate form. A detailed description of the standard tariff format is published in this publication -- see Part Two, Section 2, Subparagraph 1, on page 5. For additional information on alternate tariff formats, see Part Two, Section 2, Subparagraph 9, on page 6.
- (b) The applicant may file a form adopting the existing tariff of the company from whom authority is being leased or transferred. An "Adoption of Tariffs" form is shown on the following page.

TARIFF ADOPTION NOTICE

Tariff No. _____

(Name of new company)

(Permit No.)

(Trade name of new company)

adopts all tariffs and supplements to the tariffs,
filed with the Washington Utilities and Transportation by

(Name of prior company)

of that (prior) company, or a portion of the authority
of that (prior) company.

Notice issued by:

Name: _____

Title: _____

Telephone Number: _____

FAX Number: _____

E-mail Address: _____

Date filed with Commission: _____

SECTION 3 – APPLICANTS FOR CONTRACT SOLID WASTE AUTHORITY:

Applicants for contract solid waste authority are not normally required to file standard tariffs with the application submitted to the Commission. They must instead file contracts that meet the provisions of WAC 480-70-146 (reprinted below.)

WAC 480-70-146 Contracts. Contracts accompanying applications for contract certificated authority must be original or duplicate original contracts. They must be mutually binding on both the shipper and company, entered into in good faith, and include:

- (1) The starting and ending dates of the agreement;
- (2) The route or area in which service will be provided;
- (3) The kind and minimum quantity of the commodities to be transported (the minimum quantity must be an amount sufficient to allow operation of the company's equipment at a profit);
- (4) The rates agreed on by the parties;
- (5) A description of the process for terminating the contract before the stated expiration date, that specifies that at least five days' notice must be given to the commission and to both parties before the termination process may be implemented; and
- (6) A provision stating that the contract is subject to the authority of the commission to fix or amend just, fair, and reasonable classifications, rules, and minimum rates and charges for solid waste collection service.

PART TWO -- AMENDING EXISTING TARIFFS

SECTION 1 -- FILING METHODS/ACKNOWLEDGEMENT OF FILINGS:

You must file solid waste collection tariffs with the Records Center of the Washington Utilities and Transportation Commission ("WUTC" or "Commission").

- (a) **Filings by mail** – Please use the following mailing address:

Executive Secretary
Washington Utilities and Transportation Commission
1300 South Evergreen Park Drive SW
P. O. Box 47250
Olympia, WA 98504-7250

- (b) **Filings by hand-delivery or messenger** – Please take hand-delivered filings to the Commission's Records Center. Records Center Staff will stamp the official receipt time on the filing and distribute it to appropriate staff. If you are sending the filing via messenger, send to:

Records Center
Washington Utilities and Transportation Commission
1300 South Evergreen Park Drive SW
Olympia, WA 98504

- (c) **Filings by fax** – The Commission prefers that filings be hand-delivered, messenger-delivered, or mailed. However, if you do submit a fax filing, you must also submit a hard paper copy via mail or messenger the same day the fax transmission is made. Please do not fax filing work papers.

Acknowledgement of filing and notification of docket number -- The Commission will return a copy of your transmittal letter to you to acknowledge receipt of your filing. In the upper right-hand corner of the transmittal letter will be a notation that shows the docket number assigned to your filing and the date of the open meeting at which the Commission will consider your filing. When contacting the Commission about your filing, please refer to the docket number shown on the transmittal letter.

SECTION 2 – BASIC GUIDELINES FOR FILING A SOLID WASTE TARIFF:

The specific rules relating to the filing of solid waste tariffs are contained in the provisions of WAC 480-70-226 through WAC 480-70-356. You are encouraged to become familiar with these rules. The Commission will reject tariffs not meeting these rules. Following is a brief description of some of the provisions:

- 1) **Standard Tariff Format.** The Commission publishes a standard tariff format for use by most solid waste collection companies.
 - a) Copies of the standard tariff format are available through the Commission's Internet page. Upon request, the Commission will provide printed copies and/or electronic copies on disk.
 - b) Companies may amend the standard tariff format to reflect company operations by:
 - i) Eliminating extraneous items. Example: Companies that do not offer litter receptacle service may delete that item from the tariff filed.
 - ii) Adding items/supplements to the tariff, if required. Some local government jurisdictions have imposed surcharges on company operations. To reflect these surcharges the company the companies operating in those areas have been required to add supplements to their tariffs.
 - c) If your tariff contains different rates for different areas within your service area (and tariff), fully describe on each page the area in which the page applies.

Example: A company charges different rates for residential collection within the city limits than in the unincorporated portion of its authority. The company would publish two Item 100's in its tariff. One would be labeled "Rates apply within the city limits of the city of Anywhere" and the second would be labeled "Rates apply in Nowhere County, excluding within the city limits of the city of Anywhere."
 - d) Companies transporting special wastes may find the standard tariff format does not meet their needs. These companies may use alternate formats, subject to Commission review and approval.
 - e) Companies needing assistance or advice on developing new pages or items should contact the Solid Waste Section at: (360) 664-1242.
- 2) **Definitions.** WAC 480-70-226 contains definitions that are uniform to all company-filed solid waste tariffs. Carriers may include company-specific definitions to the tariff if they are clearly labeled as company-specific and if they do not conflict with the standard definitions contained in this rule.
- 3) **Legibility.** Companies should submit only ORIGINAL, legible pages or tariffs. All solid waste tariffs must be typed or mechanically printed (not handwritten) in at least 10-point type.
- 4) **Use of symbols.** All changes to provisions of a company's filed tariff must be identified with symbols as shown in WAC 480-70-286. Tariffs without proper symbols may be rejected.
- 5) **Item numbers.** Item numbers used in the standard tariff are reserved strictly for those services, rules, rates or charges described in the titles of the items. For example, Item 20 is reserved for definitions, Item 100 is reserved for residential rates, and Item 240 is reserved for company-owned, non-compacted container service. Companies wishing to include levels or services other than those described in the standard tariff format must use Item numbers not already reserved.

- 6) **Filing amendments.** Companies may amend filed tariffs through one of two methods:
 - a) Issuing revised pages to the tariff; or
 - b) Issuing a complete new tariff.
- 7) **Maps.** Companies are required to file maps with their tariffs. These maps must clearly identify the areas in which the tariff applies. Specifics on map formats are contained in WAC 480-70-056 and 480-70-301.
- 8) **Authority to file on behalf of a company.** If a person other than an owner, partner, or corporate officer submits a tariff filing on behalf of a company, the company must include with its tariff filing a statement granting authority for that person to file on behalf of the company.
- 9) **Alternate tariff formats.** All alternate tariffs must comply with the provisions of Chapter 480-70 WAC relating to tariffs, and to the following specific rules:
 - a) WAC 480-70-241 – Tariffs, content (all tariffs must have a title page, a rules section, a rates section and a map);
 - b) WAC 480-70-281 – Tariffs, format and size requirements;
 - c) WAC 480-70-286 – Tariffs, changes must be identified;
 - d) WAC 480-70-291 – Tariffs, title pages;
 - e) WAC 480-70-296 – Tariffs, page format;
 - f) WAC 480-70-301 – Tariffs, maps;
 - g) WAC 480-70-306 – Tariffs, rules;
 - h) WAC 480-70-316 – Tariffs, supplements.

SECTION 3 -- TARIFF FILING CHECKLIST

The following materials must be included with a solid waste collection tariff filing. Note: If this information is not submitted with the filing, or is not readily available at company offices, the accounting staff may request to have it compiled before an audit appointment is made. This may cause the filing to be suspended or rejected, resulting in a delay in the effective date of the proposed rate increases.

- 1) Transmittal letter (two copies). (See detailed description of transmittal letter requirements in Section 4.)
- 2) Copies of all customer notices. (See detailed description of customer notice requirements in Section 5.)
- 3) Copies of all ordinances, resolutions, disposal site fee notifications, etc., that were reasons for the filing.
- 4) For general rate increases, one copy of each of the following:
 - a) Can/Customer Count that ties within 5% of Pro Forma Income Statement. (See detailed description of can/customer count in Section 6.)

- b) Pro Forma Income Statement, showing ledger amounts with restating and pro forma adjustments and the revenue effect of proposed rates. (See detailed description of pro forma income statement in Section 7.)
 - c) Monthly Income Statement of Test Year that ties to Pro Forma Income Statement, using the same 12 months as the test year, and ending on a quarter.
 - d) Depreciation Schedule;
 - e) Consolidated Balance Sheet, Debt-to-Equity Ratios, Breakout of Individual Debt Components;
 - f) Computation of Average Investment;
 - g) If non-regulated revenue represents more than 10 percent of test period revenue on a total company basis, a separation of all revenue and expenses between regulated and non-regulated portions.
 - h) Detailed list of all non-regulated operations, including rates charged and services rendered;
 - i) Information relating to affiliated interest transactions that may, either directly or indirectly, impact the proposed rates. This information must include a full description of affiliated interest relationships, the terms and amount ongoing, and an income statement and balance sheet for every affiliated entity.
 - j) Copy of most recent consolidated report to shareholders, where applicable.
 - k) Cost of service study (Class A companies only.) (See more detailed description in Section 9).
 - l) Any additional information that should be brought to the attention of the Commission regarding the rate application that justifies the need for increased rates. Examples: Copies of labor contracts, notices of insurance premiums, county service level ordinances, etc.
- 5) Original, legible tariff on standard tariff format (specialized carriers may use alternate format).
- 6) If appropriate submit properly completed LSN forms. (See more detailed description in Section 8.)

SECTION 4 -- TRANSMITTAL LETTERS

You must submit an original and one copy of a transmittal letter with your filing. See WAC 480-70-326(2). See sample on following page.

Your transmittal letter must include at least the following:

- Your company name, certificate number, and registered trade names;
- A description of each proposed change and a brief statement of the reason for each change;
- The dollar and percentage amounts that revenue will change if the filing is approved by the commission;
- The percentage amount that rates will change if approved by the commission;
- A contact person's name, mailing address, telephone number, FAX number (if any), and e-mail address (if any); and
- A statement that your company mailed a copy of the transmittal letter to the chair of the county commission or county council of each county affected by the filing.
- A statement that your company mailed a copy of the transmittal letter to the senior officials (mayor and/or city council chair) of each city affected by the filing.
- A transmittal letter accompanying a filing that proposes to increase rates or charges must also include the date customer notice was, or will be, mailed or delivered to all affected customers.

Sample Transmittal Letter:

Any Solid Waste Collection Company
12345 Recycler's Drive
Anytown, Washington 99999

Secretary
Washington Utilities and Transportation Commission
P O Box 47250
Olympia, WA 98504-7250

Dear Sirs:

This filing is submitted by: Any Solid Waste Collection Company, Inc., G-000, d/b/a Mike's Refuse and Recycling and d/b/a Western Washington Hauling.

This filing proposes a general rate increase. This increase is necessary to offset increased disposal site fees; increases due to a recent wage increase for our drivers, and increased office expenses. If approved by the Commission, these rates would increase our revenues by approximately 5% (\$67,000).

In addition to the general rate increase, we are making the following changes to our tariff:

Item 100 -- We are adding a 1-can every other week service option to comply with the new county service level ordinance.

Item 240 -- We are adding a new 1½-yard container due to the requests of our customers.

As required by Commission rules, a copy of this transmittal letter will be mailed to the County Council and to the mayors of all cities impacted by this filing. We will be mailing customer notice to all affected customers on June 4, 200X. We will file a copy of the customer notice(s) with your office at the same time.

If you have questions regarding this filing, please contact Bill Andrews. His telephone number is (360) 555-5555, his fax number is (360) 555-5556, and his e-mail address is billa@anycompany.com.

Sincerely,

John Andrews, President

cc: Anywhere County Council Chair
Anytown City Manager

SECTION 5 -- NOTICE REQUIREMENTS --

Notice requirements vary depending on the type of filing you are submitting.

One-day notice. The commission may approve on one-day notice:

- (1) Initial tariff filings that accompany applications for certificated authority;
- (2) Tariff adoptions filed under the provisions of WAC 480-70-321; and
- (3) Tariff filings whose only purpose is to add a new service option or a service level which has not been previously included in the company's tariff, if that service option or service level is requested by a customer.

Seven-day notice. A company must provide at least seven calendar-days' notice to the commission on filings whose only purpose is:

- (1) To implement decreases in rates or charges; or
- (2) To add a new service option or service level which has not been previously included in the company's tariff.

Forty-five-day notice. A company must provide at least forty-five calendar-days' notice to the commission on any filing that will result in an increase in rates or charges to customers.

The following rule governs how the Commission computes notice periods:

WAC 480-09-130 Computation of time. The time for doing an act governed by this chapter shall be computed by excluding the first day and including the last, unless the last day is a holiday, Saturday, or Sunday, and then the last day is excluded from the computation.

Customer notice requirements:

Solid waste collection companies must provide notice to the company's customers at least once, either before or after final Commission action, depending on the type of filing. (See WAC 480-70-271 for a detailed description of customer notice requirements.)

30-day Customer notice before commission action. (See sample on following page.).

- 1) 30-day notice to customers is required on filings that:
 - a) Increase rates;
 - b) Institute a charge for a service that was formerly provided without charge; or
 - c) Restrict access to services (e.g., discontinue a service or limit access to service by imposing a new usage level on existing services).
- 2) Notices must be provided to:
 - a) Each affected customer;
 - b) County commissioners or council members in all counties where affected customers reside;
 - c) The senior officials of affected cities (mayors or city managers) where affected customers reside; and
 - d) The Commission's designee.

Sample 30-day Customer Notice

ABC Garbage Hauling, 123 Throw It Drive, Olympia, WA 98504,
1-800-you-cans

October 27, 200X

ABC has filed to increase monthly rates to cover higher expenses to bill customers and to recover higher energy costs. We are asking for these rates to be effective on December 1.

Services	Current rates w/o recycling	Proposed Rate w/o recycling	Current rate with recycling	Proposed Rate with recycling
Mini Can	\$12.00	\$13.22	\$11.00	\$12.22
1 can wkly	\$14.35	\$15.51	\$13.35	\$14.51
2 can wkly	\$20.51	\$22.51	\$19.51	\$20.51
3 can wkly	\$28.51	\$29.51	\$27.51	\$26.51
4 can wkly	\$35.51	\$36.51	\$34.51	\$32.51

This proposal will affect other services that are not reflected above by approx. 5% increase. Please call our office to inquire about how it may impact your rates at 1-800-you-cans.

The commission has the authority to set the final rates that may vary from the company's request depending on the results of its investigation. To comment on this filing, be added to the commission's mailing list, or ask questions about the ratemaking process, please use the contact information below. You may also comment in person at the commission's open meeting at 1300 S. Evergreen Park Dr. SW in Olympia at 9:30 a.m. on <open meeting date>.

If you are unable to attend an open meeting in person, you can participate or listen by telephone. Call 360-1234 for instructions the day before the open meeting.

You may also comment by using the "Public Comment" feature at the commission's web site, at <http://www.utc.wa.gov> or you may provide your comments in the following manner:

Mail: Post Office Box 47250, Olympia, WA 98504-7250

E-mail: comments@wutc.wa.gov

Telephone: 1-888-333-9882

Fax: 360-664-3604

Customer notice after final commission action.

- 1) **Notice required.** Each affected customer must receive notice on or with the first bill after the final Commission decision when a company increases rates for:
 - a) Nonrecurring charges (e.g., late payment fees, NSF fees, one-time charge, etc.);
 - b) Local taxes;
 - c) Disposal fee increases;
 - d) Fuel surcharges;
 - e) Credits or refunds; and
 - f) Commodity credits and charges.
- 2) Notices must be provided to:
 - a) Each customer that will be affected by the company's proposal;
 - b) County commissioners or council members in all counties where affected customers reside;
 - c) The senior officials of affected cities (mayors or city managers) where affected customers reside; and
 - d) The Commission's designee for public affairs.

Commission assistance on the customer notice. The commission's consumer protection section is available to:

- a) Assist companies with customer notice questions;
- b) Review draft customer notice language; and
- c) Offer suggestions on draft customer notice language. If a company would like assistance, the company must submit the notice for review at least two working days before the planned notice printing date.

SECTION 6 -- CAN/CUSTOMER COUNT

Companies must file an accurate, verifiable can/customer count. The count should include the number of pickups and the number of customers for each type of service (residential, commercial, and drop box) and respective service levels offered. Examples:

- Residential:
 - 1-can service, 2-can service, with and without recycling and/or yard waste, etc.;
 - Carry-outs and drive-ins;
 - Sunken cans, stairs, steps, etc.
- Commercial:
 - Commercial cans with and without recycling (under 5, over 5, minimum charge, etc.);
 - Litter receptacles;
 - Loose and bulky;
 - Time rates;
 - Washing and cleaning.
- Containers:
 - Non-compacted containers, by size and frequency of service, (both per pick up and rental portions) with and without recycling; and
 - Compacted containers, by size and frequency of service, (both per pick up and rental portions) with and without recycling.

- Drop box:
 - Disposal site pass through fees (tons/yards and dollars)
 - Non-compacted drop boxes, by size and frequency of service, (both per pick up and rental portions); and
 - Compacted drop boxes, by size and frequency of service, (both per pick up and rental portions).

An example of a can/customer count is shown below. It is provided for illustrative purposes only and is not intended to be all-inclusive. The can/container count you submit with your filing should include all categories of service for which your company has a rate listed in the tariff from which you earned revenue during the test period. If recycling is included in the rate for any level of service, a separation of recycling and regular service rates and revenues must be included in this analysis.

The can/customer count should be based on at least one representative month of activity. Due to seasonality, your can/customer count will more accurately reflect your operations if it is based on more than one month. The can/customer count must reconcile to within five percent (5%) of the test period revenue, without adjustment.

Sample Can/Customer Count:

Residential:						
1 can weekly						
basic service		4,000	7.50	30,000	9.00	36,000
distance		300	1.25	375	1.50	450

						Percentage increase: 19.5%
			Annual	\$ 1,059,756	Pro Forma	\$ 1,266,540

SECTION 7 – PRO FORMA INCOME STATEMENT

The pro forma income statement is divided into two basic areas:

- 1) Actual operating revenues and expenses, and
- 2) Pro forma operating revenues and expenses.

The income statement is based on the operations of a specific, recent 12-month test period for which there is complete financial data available, usually ending with the last complete calendar quarter.

To begin a pro forma income statement, a trial balance from the general ledger should be prepared for the test period. The amounts shown in this revenue and expense summary become the basis for the filing. The revenues and expenses should be itemized in sequence by account title and number as prescribed in the Uniform System of Accounts. This is considered the "per books" level. [For ratemaking purposes, only expense accounts in the 4000-5000 series are included. Accounts 6200 (other income/loss) through 8800 (federal income tax) are considered "below the line" items, not included in the calculation of the operating ratio.] From this point, restating and pro forma adjustments are made to more properly reflect operations during the rate year.

Restating Adjustments

Restating adjustments modify historic operating results to more properly reflect a "normal, representative" 12-month test period and give recognition to those areas where company accounting methodology may differ from accepted regulatory practice. Restating adjustments fall into three categories:

- 1) **Reclassification** – reclassification moves dollars from one account to another with no effect on the final net income;
- 2) **Accounting adjustments** – accounting adjustments are necessary if the income statement does not properly apply basic accounting principles, such as an out-of-period expense posted in the test year, or to correct an error or oversight.
- 3) **Ratemaking** – ratemaking adjustments modify the records of the company to reflect proper ratemaking theory, such as removing expenses that were incurred by the company but are not generally allowed to be passed on to ratepayers, or converting from accelerated depreciation to straight line depreciation.

Pro Forma Adjustments

Once restated levels have been determined, pro forma adjustments are next. A pro forma adjustment gives effect to known and measurable change in revenue and/or expense that is not mitigated by any other factors.

To make a pro forma adjustment, calculate the dollar impact of each separate adjustment by revenue or expense category. Changes that occurred mid-way through the test period should only be calculated based on the number of months that were *not* at the current (higher or lower) level. This is done because a portion of the new level is already included in the test period. Changes that occur after the end of the

test period (for example an upcoming pay raise for employees, etc.) would be given the full 12-month effect, since none of the revenue/expense has been included in the test year.

It is important to note that when making a pro forma adjustment, estimates of some future level of activity are not acceptable. If fuel, payroll, disposal fee expenses, or revenues are being increased because of a price change or test-year rate increase, actual gallons consumed, hours worked, tons dumped, and revenue collected during the test year are adjusted to the new price or rate level. The amount of units on which the adjustment is to be based is not changed, only the rate. This means no estimates of future fuel consumption, labor hours, tons dumped, or customer growth, etc., will be accepted. The work papers showing the steps taken to reach the final adjustments must be included in the rate case filing.

After all changes in revenues and expenses have been accounted for, the last step in completing the pro forma income statement is to calculate the effect of the proposed rates. The results of the can/customer count should be used in this step. On the can/customer count, the proposed rates should be multiplied by the number of customers in their respective categories. The resulting percentage increase or decrease is applied to the pro forma revenue levels (by classification) on the pro forma income statement. The result becomes the effect of proposed rates. The revenue-sensitive portions of company expenses should be adjusted accordingly. Again, it is important to note that there is no adjustment to absolute dollar amounts generated by the customer count, because the percentage method will reconcile the customer count to actual results. In the example can/customer count (see Section 6), residential revenue on the pro forma would increase by 20%, commercial revenue would increase by 25%, and so on.

Operating Ratio

Total company operating expenses divided by total company operated revenue equals the total company operating ratio expressed as a percentage. Operating ratio is the primary measurement historically used by the Commission to determine a company's revenue requirement. In the attached example of a pro forma income statement, the operating ratio should be calculated on columns (a), (c), (e), (g) and (i).

An acceptable operating ratio for a particular company is variable depending on the individual circumstances of the filing company. "Individual circumstances" refers to such items as current revenues/expenses, the net investment, the capital structure, and the calculated weighted average cost of debt. The operating ratio for a particular company can be calculated by entering company-specific data into the Lurito/Gallagher Operating Ratio Formula available on disk from Commission Staff. This program is a Lotus 1-2-3 file. (See Example below.)

SECTION 8 -- COST OF SERVICE STUDY:

Pursuant to WAC 480-09-335(4), Class A companies must submit a completed cost of service study with the initial rate filing. This study is used to determine the costs of providing a particular service to a specified service level. The cost of service study is considered valid for two years following the rate increase request with which it was submitted. Updates must be made as necessary in later rate cases. Once the two-year period has elapsed, a new cost of service study is required. Class B and C companies are not required to submit cost of service studies with initial filings, but are encouraged to use one for the formulation of rates. Commission Staff is available to assist in this, if necessary.

A cost of service study allocates costs incurred in the normal operations of a company to the most appropriate service levels in an attempt to reflect the actual "cost of providing service" in the rates of that particular service. Another goal of the study is to prevent cross-subsidization between service levels. This is accomplished by separating the costs into major categories such as labor, disposal fees, fuel, repairs, depreciation, etc., that are then allocated to appropriate service levels based on the efforts/costs expended/incurred to provide that service. The end result is a summary of what it costs a company to pickup a typical 1-can customer, a 2-can customer, a container or drop box customer, etc.

See sample Cost of Service Study on next three pages.

SECTION 9 – LESS THAN STATUTORY NOTICE HANDLING (LSN).

(A sample completed LSN form is shown on the following page.)

The commission may allow tariff filings to become effective with less notice than is shown in WAC 480-70-262 and 480-70-271 when there is an emergency or when merit is shown. This process is known as "less than statutory notice" (LSN) handling. A company filing for LSN handling may use an LSN form supplied by the commission, or a letter containing at least the following information:

- (1) Company identification information:
 - (a) Name and registered trade name;
 - (b) Certificate number;
 - (c) Address;
 - (d) Telephone number, e-mail address, and FAX number; and
 - (e) Name and telephone number of a person to contact regarding the filing;
- (2) Tariff identification information:
 - (a) Number of the tariff being amended;
 - (b) Identifying number and title of the tariff item(s) being amended; and
 - (c) Number of the tariff page being amended;
- (3) Concise description of the provisions being proposed;
- (4) Reason(s) for requesting LSN handling; and
- (5) Effective date requested.

Applications for LSN handling must include full cost justification for the proposed rates.

NOTE: All pages submitted with an LSN application must show an effective date that is at least 45 days after the filing is received by the Commission's Records Center. If the Commissioners approve your LSN filing, the effective date authorized by the Commission will be noted on the pages of the filing, and copies will be returned to you.

LSN applications are considered at one of the Commission's Open Public Meetings. To be considered at a specific meeting, the completed LSN application and all necessary documentation must be received at least seven days before that meeting.

Commission Docket No. _____

Agenda Date Assigned _____

BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

LESS THAN STATUTORY NOTICE REQUESTED BY:

Company name: _____ Certificate No. _____ UBI No. _____

Registered Trade Name(s) _____

Company proposes to change: _____ Number _____

Present provisions are:

Proposed changes are:

Indicate below, or attach, an explanation of the reason the company requests permission to file and publish the proposed provisions with less than statutory notice.

(This section to be completed if filing is made by other than owner, partner, or corporate officer of the company)
